

BORDEAUX CHÂTEAU FONTANA

BORDEAUX AOC

Founded in 1950, Fontana family vineyards are today managed by Mr Fontana's four sons. The vineyards are situated on the hills of Gensac with Southern exposure. The soil is composed of limestone and clay up to 110 meters above sea level and the sunshine gives the grapes great exposure resulting in ripe flavored fruit, typical of great Bordeaux.

Clay and limestone

VARIETALS

70% MERLOT

20% CAB. F

10% CAB. S

WINEMAKING

Each plot is picked and vinified separately according to the ripeness of the fruit. The grapes undergo a 30 day maceration in stainless steel tanks with daily pumpovers in order to extract color, tannins and structure.

TASTING NOTES

Deep and dark red color. On the nose, the Merlot brings nice small red berry flavors while the Cabernet Sauvignon offers a hint of spice and herbs. Slight toasted notes of the nose are confirmed on the palate with nice rounded tannins. This is a full bodied wine with plenty of freshness and a long finish.

FOOD PAIRING
